

# UCON ASC

## Complete emptying

COMPLIANT WITH  
EG 1935/2004 REGULATION

[www.ucon.de](http://www.ucon.de)

### Aseptic container for liquids and highly viscous products

Unbeatable service life. UCON, the safe choice.

- Bottom and outlet recess designed in one piece
- Deep-drawn bottom is cone-shaped 26°, 30° and 45°
- Improved outlet for better flow
- Guaranteed complete emptying, residue free
- Extremely easy to use and clean
- Environmentally friendly
- Vacuum resistant (0,15 bar to optional 0,5 bar)
- Designed for aseptic/sterile rise

UCON ASC features ideal cleaning geometry, residue-free emptying, and is non-permeable. With great variety in sizes and non-wearing construction which allows continual re-use, the UCON aseptic container ASC made of stainless steel meets all your requirements.

Our striving for quality and perfection ensures the highest possible degree of safety and lifespan. Your requirements and our pioneer culture give rise to customized, innovative products made of stainless steel.

THIELMANN CONTAINER SYSTEMS

BEVERAGES | CHEMICALS | COATINGS | PHARMACEUTICALS

View of the deep-drawn outlet recess which has no welded joints and is therefore especially flow-friendly.

Bottom and outlet recess have been designed in one piece. This avoids the possibility of deposits forming in welded joints.

The specially flow-friendly form permits complete emptying of the foodstuffs content and makes cleaning particularly easy.

Particularly user-friendly, safe and leak-proof filling method. Compatibility with all common connections is guaranteed.

## Environmentally friendly IBC for highly viscous, poor flowing liquids.

Type ASC. Stainless steel construction guarantees the longest service life.

### Applications:

Transport and storage of products used within the food, beverages, pharmaceutical, coatings and chemical industry.

### Handling:

Suitable for forklift and hand pallet truck handling  
Stackable

### Capacity:

500 - 2000 liters.

### Certifications:

- UN certification available
- CE approval available
- Compliant with EG 1935/2004 regulation

### Advantages:

- Circumferential stacking ring allows stacking 3 high.
- Safe forklift transport (fork tunnels)
- Complete emptying of container due to steep bottom with hardly any dead space or zones, fitted with outlet pocket and directly flange-mounted butterfly valve
- Weight optimized frame composed of tubular profile
- Various outlet versions
- RFID tags for tracking purposes
- Stainless steel options: AISI 304 or AISI 316.
- \* Optionally available with heating or cooling jacket.

Type ASC	Tank Diameter Ø mm	Height mm	Weight kg
500	1000	1170	95
	1000	1540	110
	1000	1810	120

...ers: 1140 / 800 / 700 / 600 / 550 mm.
